

# JUD – Stage Plot ( 2010 ) - Current Album „Sufferboy“

Label:

excluding Germany Switzerland Austria released via Village Slut / Fading Ways

Germany Switzerland Austria released via Noisolution / Indigo

JUD is a Trio:

David Judson Clemmons – Vocals Guitars

Jan Hampicke – Bass & Backing Vocals

James Schmidt – Drums

Sound..Some hints.....

Jud is very loud on stage so please be ready,

Bass amp should only have a mic, no D.I. signal please

Overall style should be without gates and/or compression

Long repeating delays for vocals (when appropriate) are welcomed

Lighting:

Awesome if 4 Floor spots can be placed behind the band as in the plot below.

We prefer for only the Floor spots to be on for the entire show, and very little or no light from above. In other words it is a great band for the lighting engineer to get wasted to..

Thanks for hooking up JUD
